

PROJECT CENTRIC LEARNING (PCL) PHASE 2

PROJECT TITLE		PhishGuard - Real-time Phishing URL Detection System		PROJECT TEAM NO.	COEPCL - 10106
TEAM MEMBERS					
S. No.	USN No.	NAME OF THE STUDENT	CLASS	MOBILE NO.	
1	23BTRCT007	Akhilesh Reddy	CSE* A	7760007395	
2	23BTRCT009	Amarthya K	CSE* A	7975341741	
3	23BTRCT048	Athul Ray	CSE* B	9400670227	
4	23BTRCT049	Divakar S	CSE* A	9361184690	
DETAILS OF THE PROJECT GUIDE					
NAME		Dr. S. Jerald Nirmal Kumar			
DESIGNATION		Assistant Professor			
DEPARTMENT		Computer science and engineering			
eMail ID		jerald.cse@gmail.com			
Phone No.					
DOMAIN OF THE PROJECT					
CyberSecurity / web Security					
Scope of the Project					
1. Detect phishing and malicious URLs in real time					
2. Analyze lexical, domain-based, and context-based website features					
3. Provide browser based phishing alerts using machine learning model					
4. Improve user security against phishing and zero-day attacks					

PROJECT GUIDE

PROJECT COORDINATOR

Existing System:-

Traditional phishing detection systems mainly rely on blacklist database and heuristic-based methods. These systems fail to detect newly generated phishing URLs and zero-day attacks. They also introduce latency due to dependency on external APIs and provide limited browser-based real-time protection.

Problem Identification

- 1) Increasing phishing and fake websites
- 2) Inability to track and blacklist the fake websites
- 3) High latency in external API-based detection
- 4) Privacy concern in third-party URL analysis.

Proposed System:-

PhishGuard is a realtime phishing URL detection System that uses a hybrid ensemble approach combining Random forest, XGBoost and character-level CNN model. The system analyzes URL's in Real time through a browser extension and classifies website as safe, suspicious or Phishing.

No. of Modules

Sl. No.	Name of the Module	Remarks
1	Data Collection module	collect the URL's
2	Feature Extraction Module	Extract domain & features
3	Machine learning Module	Random forest, CNN
4	Browser Extension Module	Real time phishing alert system.
